## KOHLERT & SOHNE PURE CUSTOM TENOR SAX

### VKS-TS100

Design of this supreme tenor saxophone is unique. Each model has setup which is fully customized by customer demands. Some typical parts of this instrument you cannot find on any other instrument and all parts are made from top quality materials using the best techniques of our craftsmanship.

### Typical features

of this saxophone are smooth connection between bow and bell ensuring fluent flow of soundwaves and removes barriers for brass vibration. Every possible key is adjustable for each musician's needs. We offer best kangaroo leather pads and gold plated key springs to ensure long durability of the instrument.

### We offers

not only professional musical instrument, but way for musicians to express themselves by creating their own instrument that they can love.

Custom finish

Smooth design

Three different necks

## You can choose

your finish and key setup of your Instrument. We welcome you to our factory for testing before we will finish the instrument. There you can play it and tell us which setup you want. As surface finish you can choose black nickel, marble, lacquer, silver plating or nickel plating. Or any combination.

## KOHLERT & SOHNE Eb Clarinet

### VKS-EC100

Kohler special Eb clarinet is made from selection of old wood. It has unstained finish. Columns and rings are plated with 24 carats gold that gives this instrument special aesthetics

## KOHLERT & SOHNE Bb Bass Clarinet

**VKS-BC100**  
is a special, wide range, full automatic octave key bass clarinet. It is made out of fine selection of grenadilla wood with unstained finish. Unusual aesthetics is achieved by using black nickel neck and black nickel bell with silver plating on inner side.
